

User Guide

Introduction

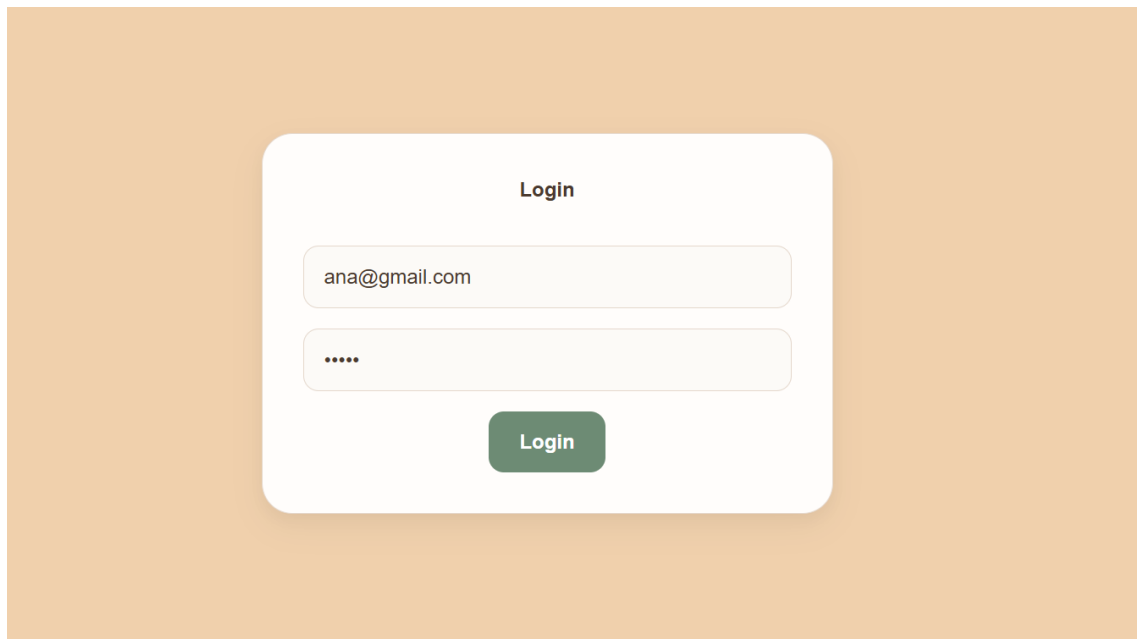

Smart Wardrobe is a web application that allows users to manage a virtual wardrobe and generate outfit recommendations based on weather conditions.

The application provides functionality for clothing management, outfit generation, and user authentication.

Login

1. Open the application.
2. Enter your email and password.
3. Click the "Sign In" button.
4. After successful authentication, the user is redirected to the main menu.

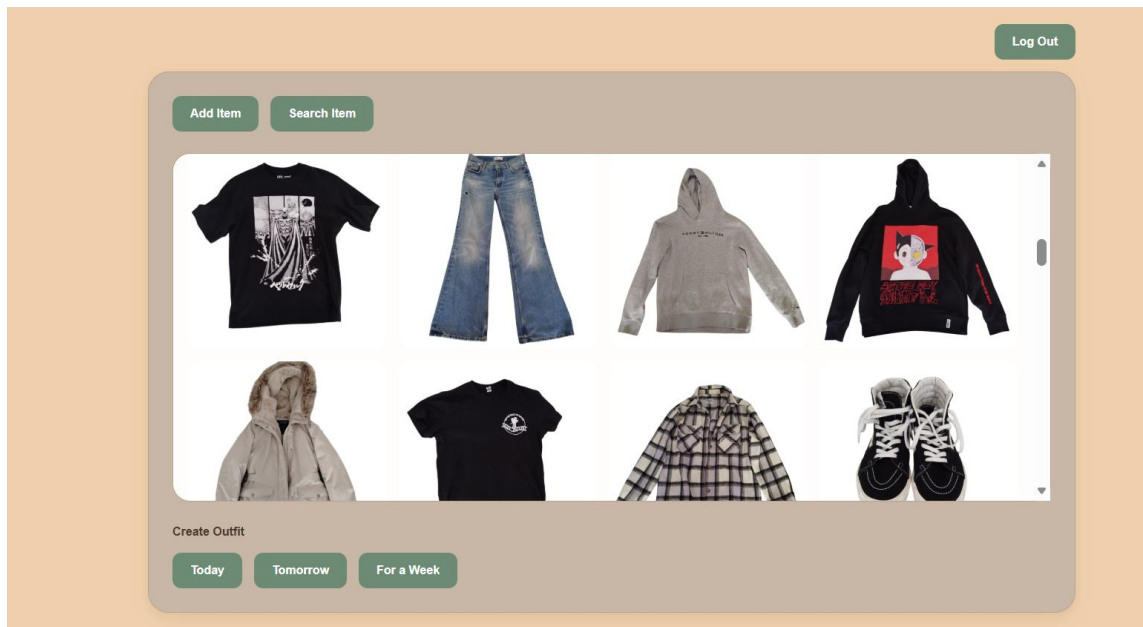

If the user does not have an account, they can register using the sign-up page.

A mockup of a login form centered on a solid orange background. The form is a white rounded rectangle with a subtle drop shadow. At the top center of the form is the word "Login" in a bold, black, sans-serif font. Below this are two input fields: the first contains the email address "ana@gmail.com" and the second contains six dots representing a password. Both fields have a light gray border and rounded corners. At the bottom center of the form is a dark green rounded rectangle button with the word "Login" in white, bold, sans-serif font.

Main Menu

The main menu provides access to all available features:

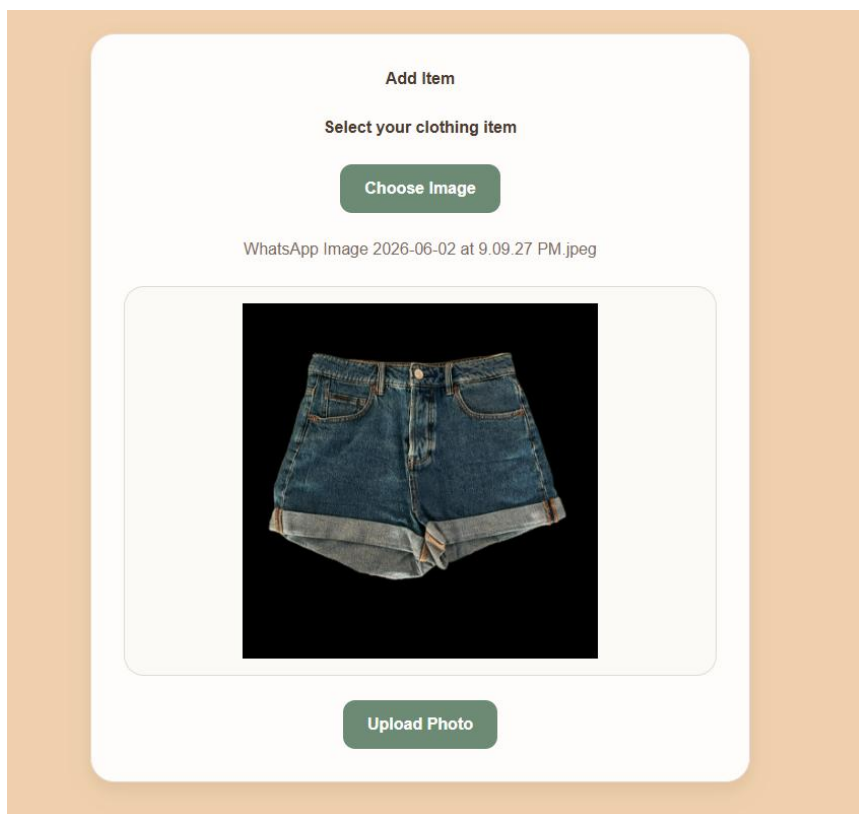

- View wardrobe
- Add clothing items
- Search clothing items
- Generate outfit for today
- Generate outfit for tomorrow
- Generate outfit for a week
- Log out

Adding a Clothing Item

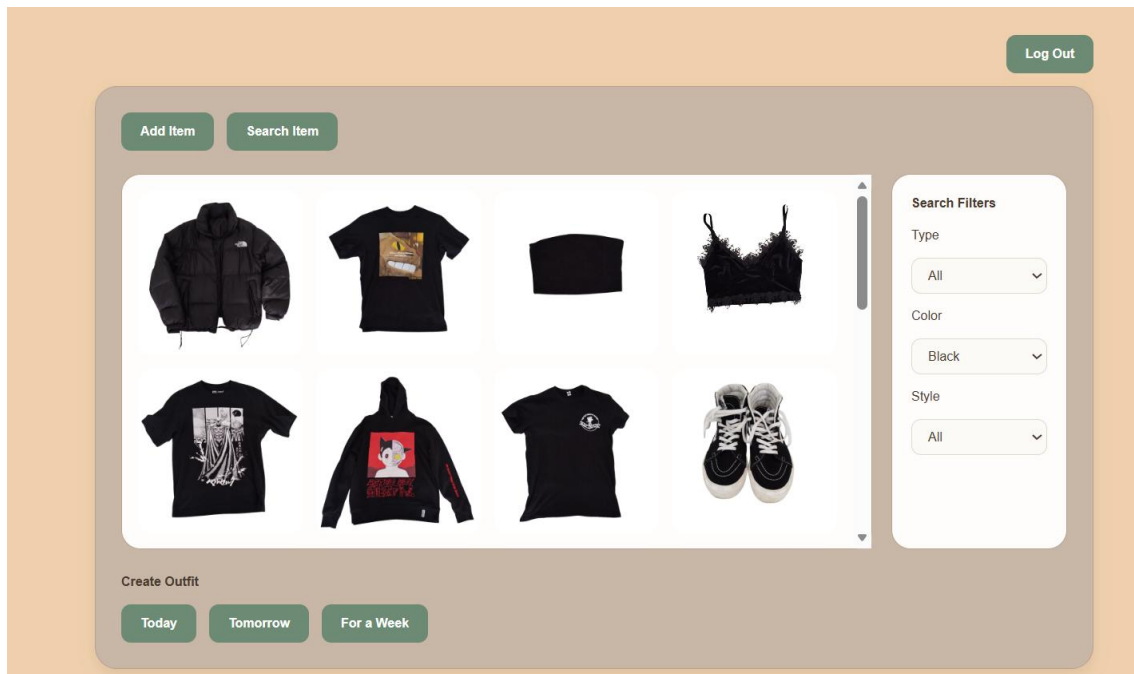

1. Select "Add Item" from the main menu.
2. Click "Choose Image".
3. Select an image from your device.
4. Upload the image.
5. Complete the clothing information:
 - Type
 - Color
 - Style
6. Save the item.

The clothing item will be stored in the user's wardrobe.

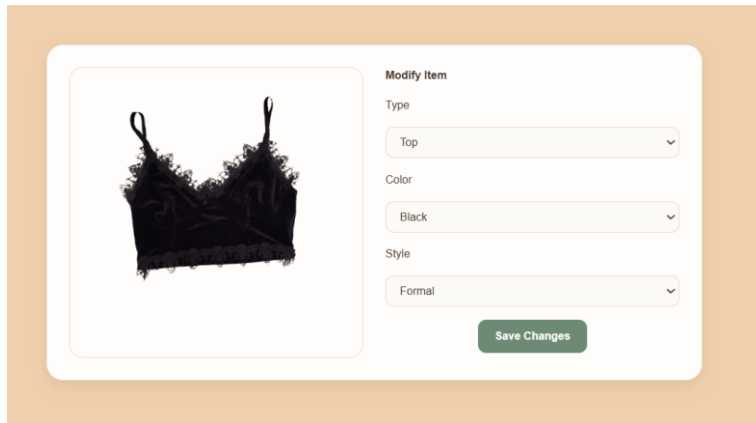

Viewing the Wardrobe

1. Open the wardrobe from the main menu.
2. Browse the available clothing items.
3. Each item displays:
 - Image
 - Type
 - Color
 - Style

Editing a Clothing Item

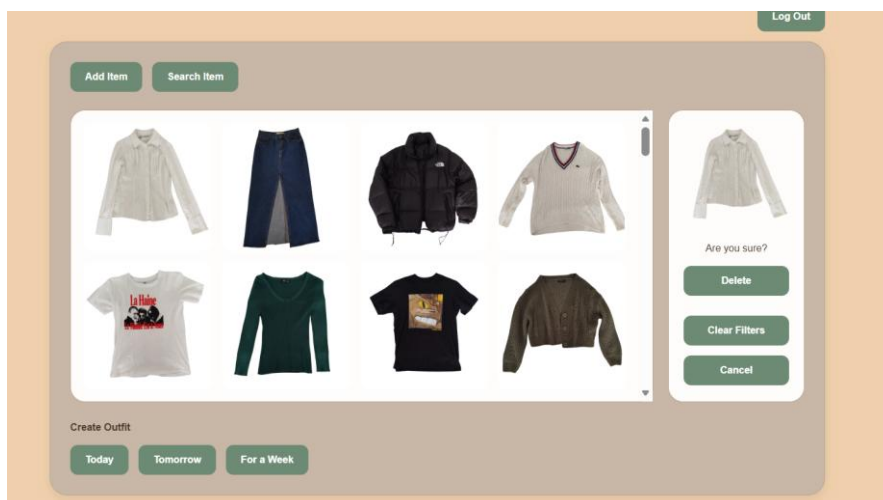

1. Open the wardrobe.
2. Select the desired clothing item.
3. Modify the item's attributes.
4. Save the changes.

Deleting a Clothing Item

1. Open the wardrobe.
2. Select the clothing item.
3. Click the delete option.
4. Confirm the action.

The item will be permanently removed from the wardrobe.

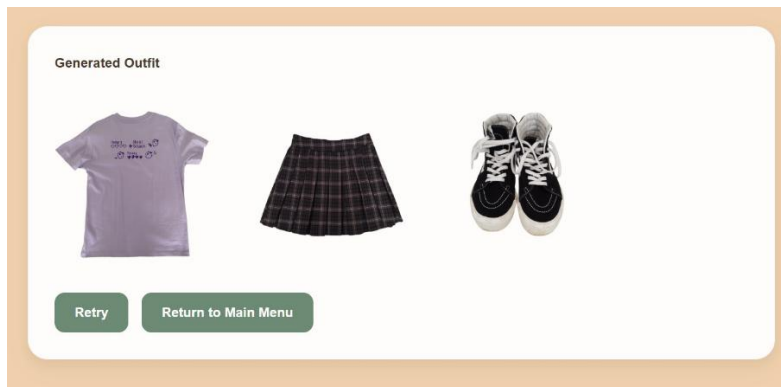

Generating an Outfit for Today

1. Select "Generate Outfit for Today".
2. Enter the city and country.
3. Click "Generate Outfit".

The application retrieves the weather forecast and recommends a suitable outfit.

The user may:

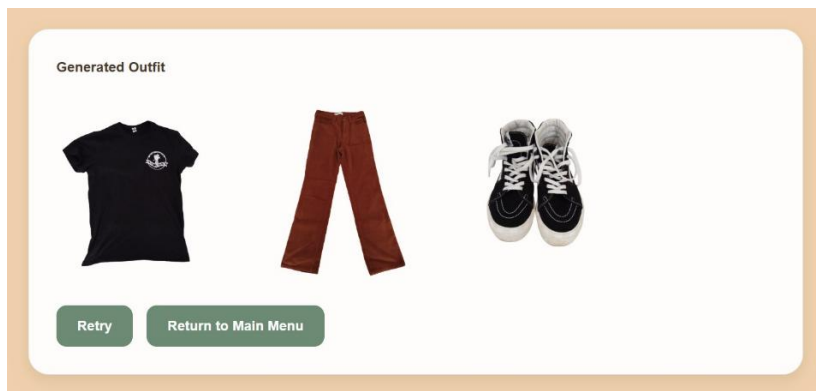

- Retry to obtain a different combination.
- Return to the main menu.

Generating an Outfit for Tomorrow

1. Select "Generate Outfit for Tomorrow".
2. Enter the city and country.
3. Click "Generate Outfit".

The application generates an outfit based on tomorrow's forecast.

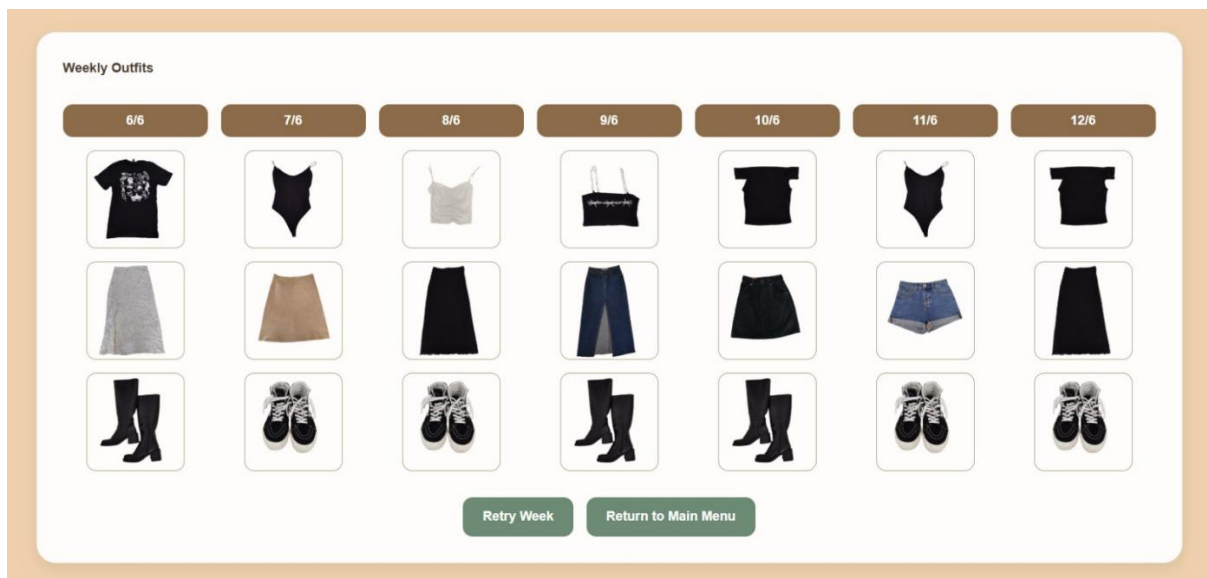

Generating Weekly Outfits

1. Select "Generate Outfit for a Week".
2. Enter the city and country.
3. Select the starting date.
4. Click "Generate Week".

The application generates one outfit for each day of the following week.

The user may:

- Regenerate the weekly plan.
- Return to the main menu.

Logging Out

1. Open the main menu.
2. Click "Log Out".

The session will be closed and the user will be redirected to the welcome page.
